Excellent for clinical practice (demo CD available) Rs. 14,000/- CDR0M02 1 piece Guasha CD-Excellent for clinical treatment of common diseases. Rs. 500/- 17. Diagnostic Units:- DU 01 1 piece Acujing:- The world's first computerised acupuncture system. It is a powerful and versatile system which helps in diagnosis and treatment (made to order) (demo version available) Rs. 2,75,000/- DU 0 2 1 piece Pulse Analysis System:- It is a unique device which utilizes a sensor to measure the flow of energy of various pulses i.e. the lung, large intestine, kidney, urinary bladder, liver, gall bladder, heart, small-intestine, pericardium, triple energizer, spleen and stomach. This gives us a graph which is then assessed through a computerized programme and it gives us detailed information regarding the health status of all the organs. The relevant information is based on the 5 element theory and the treatment to be adopted is solely based on the use of the 5 shu points. It is the latest in diagnostic and therapeutic devices available in the world today. (available against advance order)

(demo version available) Rs. 50,000/-
